HKMA Warns about Fraudulent Bank of China Email and Cambodian Bar Association Website

[<web-link for this article>](#)

The Hong Kong Monetary Authority (HKMA) has issued a warning about an e-mail purporting to be sent from Bank of China (Hong Kong) Limited (BOCHK). The email provided a link to a page that appeared to be the BOCHK online banking login, but was, in fact, a fake hosted on the website of the Bar Association of the Kingdom of Cambodia. The fake webpages (<http://bakc.org.kh/its1s/boconlines2ssl/login/index.html> and <http://www.bakc.org.kh/km/its1s/boconlines2ssl/login/index.html>) had been removed that the time of writing.

Victims of this scam should contact BOCHK at 3988 2388 and any local police station or the Cyber Security and Technology Crime Bureau of the Hong Kong Police Force at 2860 5012.

An HKMA spokesperson said, "Members of the public are reminded not to access their Internet banking accounts through hyperlinks embedded in e-mails, Internet search engines or suspicious pop-up windows. Instead, they should access their Internet banking accounts by typing the website addresses at the address bar of the browser, or by bookmarking the genuine website and using that for access. In addition, banks are not expected to send e-mails asking their customers to provide their account information (e.g. Internet banking logon passwords) or verify their account information online. If in doubt, they should contact their banks".

Singing for Security

[<web-link for this article>](#)

Is it possible to encourage better security practices through music? These lyrics, written by Yui Kee Chief Consultant, to be sung to the tune of "[I am the Very Model of a Modern Major General](#)" by Arthur Sullivan, try to highlight some common mistakes:

I am the very model of a modern Office Manager

I am the very model of a modern Office Manager
I control the information and profit most spectacular,
To raise the business profile, engagement is no obstacle
From viral tweet to YouTube channel my likes are astronomical
And when I choose a hashtag all my follows race to retweet it
I understand the trending meme, I honestly do submit
Everything is 2.0, my business is in the clear
My social media presence is trending on the twittersphere

I'm very good at SEO, SMO and KPI
My CTR and CPC your ROI will multiply
Control the information there is profit most spectacular,
I am the very model of a modern Office Manager.

In fact, if I knew how to keep my facebook photos private
And I didn't keep accepting lost fortunes from a tyrant
If I did not keep using password as my password
And memorising passphrases I had mastered
If I knew what phishing, APT and virus were
And didn't keep on clicking on attachments in a blur
In short, if I could keep my information secret, safe, accessible
You'll say this Office Manager is the most professional

So my information security is obviously deficient
But maybe I can learn to be a little more efficient
Control the information there is profit most spectacular,
I am the very model of a modern Office Manager.

The lyrics won the "Better Living Through Technology" section of the individual contest in the [Presias 2015 Lyric Writing Contest](#).
